RE: LETTER OF SUPPORT FOR THE ROBERT C. BYRD LOCKS AND DAM HYDROELECTRIC PROJECT; FERC PROJECT NO. 15094

August 21, 2025

Secretary Reese:

The Mason County Commissioners are integral to bringing new businesses and industries to these communities. The Robert C. Byrd Hydroelectric Project (Project) located on the Ohio River in Mason County is a welcomed development that would grow the local economy and provide renewable energy benefits to our communities. This letter is written in support of the licensing of the Project.

The County Commissioners are pleased that Current Hydro is committed to hiring local and regional construction companies. With the Project's two-year construction phase, there are expected to be over 200 onsite workers, which will have a positive effect on the Mason County economy. Following construction, operating the Project will offer multiple full-time employment opportunities for decades to come as this hydroelectric Project will be a long-term asset in our community. Additionally, the Project will increase renewable energy capacity into the local utility grid.

Beyond the economic benefits, the proposed recreational infrastructure at the Project site will greatly improve public recreation access. The Project site is a popular fishing location, and the greater Mason County area will benefit from the improved quality of the Project's proposed recreation facilities.

The County Commissioners also appreciate Current Hydro's commitment to not only construct but operate its hydroelectric facility. This long-term engagement will provide economic stability and strengthen community ties. The County Commissioners support the Robert C. Byrd Hydroelectric Project and recommend the Federal Energy Regulatory Commission grant a license for the Project.

Sincerely,

Rick Handley, President
Mason County Commission
