**MASON COUNTY, WEST VIRGINIA**  
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES**  
**AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO**  
**THE STATEMENT OF ACTIVITIES**  
**For the Fiscal Year Ended June 30, 2025**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 512,016
Capital outlays are reported as an expenditure in the governmental funds but are considered an asset at the government-wide level. This is the amount of capital assets that were purchased during the fiscal year. (Note IV.C)	1,920,433
Capital outlays are reported as an expenditure in the governmental funds. In the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense charged during the year. (Note IV.C).	( 530,443)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position. (Note IV.C )	( 2,387)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the difference between prior and current year deferred revenues.	( 66,358)
Prior year deferred revenues: \$398,176	
Current year deferred revenues: \$331,818	
County pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the County's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.	
County pension contributions:	538,271
County OPEB contributions:	31,620
Pension expense	( 320,295)
OPEB expense	( 45,792)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (Note IV.G)	( 1,600,000)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (Note II.B., IV.G.,H)	
Change in net position of governmental activities	\$ 228,649
	\$ 665,714

Change in net position of governmental activities \$ 665,714

## **I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of Mason County, West Virginia (the County), conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of significant accounting policies:

### **A. Reporting Entity**

Mason County is one of fifty-five counties established under the Constitution and the Laws of the State of West Virginia. There are six offices elected county-wide, which are: County Commission, County Clerk, Circuit Clerk, Assessor, Sheriff, and Prosecuting Attorney.

The County Commission is the legislative body for the government, and as such budgets and provides all the funding used by the separate Constitutional Offices except for the offices of the Assessor and the Sheriff, which also have additional revenue sources. The County Clerk's office maintains the accounting system for the County's operations. The operations of the County as a whole, however, including all the Constitutional offices have been combined in these financial statements.

The services provided by the government and accounted for within these financial statements include law enforcement for unincorporated areas of the County, health and social services, cultural and recreational programs, and other governmental services.

The accompanying financial statements present the government [and its component units] as required by generally accepted accounting principles. In determining whether to include a governmental department, agency, commission or organization as a component unit, the government must evaluate each entity as to whether they are legally separate and financially accountable based on the criteria set forth by the Governmental Accounting Standards Board (GASB). Legal separateness is evaluated on the basis of: (1) its corporate name, (2) the right to sue and be sued, and (3) the right to buy, sell or lease and mortgage property. Financial accountability is based on: (1) the appointment of the governing authority and (2) the ability to impose will or (3) the providing of specific financial benefit or imposition of specific financial burden. Another factor to consider in this evaluation is whether an entity is fiscally dependent on the County.

#### *Discretely Presented Component Units*

Discretely presented component units are entities which are legally separate from the County, but are financially accountable to the County, or whose relationship with the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Because of the nature of services they provide and the County's ability to impose its will on them or a financial benefit/burden relationship exists, the following component units are discretely presented in accordance with GASB Statement No. 14 (as amended by GASB Statement 39). The discretely presented component units are presented on the government-wide statements.

The Mason County Board of Health serves citizens of Mason County and is governed by a five-member board appointed by the County Commission. The Board of Health is responsible for directing, supervising and carrying out matters related to public health of the County. West Virginia statute dictates the County is legally obligated to provide financial support to the board.

The Mason County Economic Development Authority serves Mason County, West Virginia, and is governed by a board comprised of 21 members appointed by the County Commission for a term of 3 years each. The Mason County Economic Development Authority develops property on behalf of the County and also provides services to external parties.

The Mason County Public Library serves all citizens of Mason County and is governed by a five member board appointed by the County Commission. The County provides financial support to the library annually.

The Mason County Building Commission serves Mason County, West Virginia, and is governed by a board comprised of three members appointed by the County Commission for a term of five years each. The Building Commission acquires property and debt on behalf of the County and also provides services to external parties.

Complete financial statements for each of the individual component units can be obtained at the entity's administrative offices.

## **B. Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Interest on general long-term debt liabilities is considered an indirect expense and is reported in the Statement of Activities as a separate line.

**For the Fiscal Year Ended June 30, 2025**

---

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied and collectible. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collectible within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, interest and special assessments are susceptible to accrual. Other receipts and taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The government reports the following major governmental funds:

The *General fund* is the government's primary operating fund. It accounts for all financial sources of the general government, except those required to be accounted for in another fund.

The *Coal Severance Tax fund*, a special revenue fund, accounts for revenues and expenditures from a severance tax placed on coal that is distributed to West Virginia counties. The State Auditor's Office requires an annual budget be submitted for approval for this fund.

The *American Rescue Plan fund*, a special revenue fund, accounts for revenues and expenditures from the federal American Rescue Plan Act.

**MASON COUNTY, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2025**

---

The *Ambulance Service fund*, a special revenue fund, accounts for ambulance service in the county.

The *Opioid Settlement Savings fund*, a special revenue fund, accounts for revenues and expenditures from Opioid Settlement lawsuit.

Additionally, the government reports the following fund types:

The agency funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using the full accrual basis of accounting. These funds are used to account for assets that Mason County, West Virginia holds for others in an agency capacity.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position**

**1. Deposits and Investments**

Mason County, West Virginia's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of less than three months from the date of acquisition.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the County reports its investments at fair value, except for non-participating investment contracts (certificates of deposit and repurchase agreements) which are reported at cost, which approximates fair value. All investment income, including changes in fair value of investments, are recognized as revenue in the operating statement. Fair value is determined by quoted market prices.

**MASON COUNTY, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2025**

---

Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Managed funds related to the retirement systems not listed on an established market are reported at estimated fair value as determined by the respective fund managers based on quoted sales prices of underlying securities. Cash deposits are reported at carrying amount which reasonably estimates fair value. The composition of investments and fair values are presented in Note IV.A.

If it is determined that the available interest rate offered by an acceptable depository in the county is less than the interest rate, net of administrative fees referred to in article six, chapter twelve of the West Virginia Code, offered it through the state board of investments, the county treasurer may, with the approval of each fiscal body whose funds are involved, make such funds available to the state board of investments for investment in accordance with the provisions of article six, chapter twelve of the code.

State statutes authorize the government to enter into agreements with the State Treasurer for the investment of monies. Authority is provided for investment in the Investment Management Board, the West Virginia Board of Treasury or the Municipal Bond Commission, or to invest such funds in the following classes of securities: Any investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. §80a, the portfolio of which is limited: (i) To obligations issued by or guaranteed as to the payment of both principal and interest by the United States of America or its agencies or instrumentalities; and (ii) to repurchase agreements fully collateralized by obligations of the United States government or its agencies or instrumentalities: Provided, That the investment company or investment trust takes delivery of the collateral either directly or through an authorized custodian: Provided, however, That the investment company or investment trust is rated within one of the top two rating categories of any nationally recognized rating service such as Moody's or Standard & Poor's.

## **2. Receivables and Payables**

### *Interfund Transactions*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables or payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

### *Property Tax Receivable*

The property tax receivable allowance is equal to 80 percent of the property taxes outstanding at June 30, 2025.

**MASON COUNTY, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2025**

---

All current taxes assessed on real and personal property may be paid in two installments; the first installment is payable on September first of the year for which the assessment is made, and becomes delinquent on October first; the second installment is payable on the first day the following March and becomes delinquent on April first. Taxes paid on or before the date when they are payable, including both first and second installments, are subject to a discount of two and one-half percent. If the taxes are not paid on or before the date in which they become delinquent, including both first and second installments, interest at the rate of nine percent per annum is added from the date they become delinquent until the date they are paid. Taxes paid on or before the due date are allowed a two and one half percent discount. A tax lien is issued for all unpaid real estate taxes as of the date of the sheriff's sale and these liens are sold between October 14th and November 23rd of each year. Sixty days of estimated property tax collections are recorded in revenues at the end of each fiscal year.

All counties within the state are authorized to levy taxes not in excess of the following maximum levies per \$100 of assessed valuation: On Class I property, fourteen and three-tenths cents (14.30 cents); On Class II property, twenty-eight and six-tenths cents (28.60 cents); On Class III property, fifty-seven and two-tenths cents (57.20 cents); On Class IV property, fifty-seven and two-tenths cents (57.20 cents). In addition, counties may provide for an election to lay an excess levy; the rates not to exceed statutory limitations, provided at least sixty percent of the voters cast ballots in favor of the excess levy.

The rates levied by the County per \$100 of assessed valuation for each class of property for the fiscal year ended June 30 were as follows:

<u>Class of Property</u>	Assessed Valuation For Tax Purposes			<u>Current Expense</u>	<u>Excess Levy</u>
Class II	\$ 532,122,725			28.60 cents	4.50 cents
Class III		660,781,919		57.20 cents	9.00 cents
Class IV		112,474,333		57.20 cents	9.00 cents

Mason County, West Virginia held a special election on November 3, 2020. The County was authorized to lay an excess levy to provide approximately \$760,957 annually during the five fiscal years ended June 30, 2022 through June 30, 2026 , for the purpose of: providing financial support to the New Haven, Mason, Point Pleasant, Valley, Leon and Flatrock Fire Departments in the amount of \$104,000 to each department for general funding; Mason County Emergency Ambulance Service in the amount of \$104,000 for general funding; and, Mason County Public Service District in the amount of \$32,957 for fire hydrant installation and maintenance.

### **3. Inventories**

There are no material inventories maintained; therefore they do not appear on the financial statements.

#### **4. Capital Assets and Depreciation**

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the governmental activities' column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$15,000 or more and estimated to have a useful life in excess of one (1) year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend assets lives are not capitalized.

Right-to-use leased assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental activities' columns in the government-wide financial statements. Right-to-use assets are defined by the government as leased assets, with a value greater than \$50,000, for which the government maintains the right to occupy, operate, or hold for a period more than one (1) year. This does not include any lease contracts that transfer ownership at the end of the lease. Such assets are recorded at the present value of the payments expected to be made on the lease, including any payments made at or before commencement and initial direct costs to place the asset into service, less any lease incentives. The government amortizes the right-to-use leased assets using the straight-line method over the period of the lease term or the life of the asset, whichever is shorter.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

The government depreciates the capital assets using the straight-line method. Capital assets depreciation and capitalization policies are defined by the government as follows:

<u>Asset</u>	<u>Straight-line Years</u>	<u>Inventory Purposes</u>	<u>Capitalize/ Depreciate</u>
Land	not applicable	\$ 1	\$ Capitalize only
Land improvement	20 to 30 years	1	17,500.00
Building	40 years	1	25,000.00
Building improvements	20 to 25 years	1	25,000.00
Construction in progress	not applicable	1	Capitalize only
Equipment	5 to 10 years	1,000	15,000.00
Vehicles	5 to 10 years	1,000	15,000.00
Infrastructure	40 to 50 years	50,000	100,000.00

#### **5. Compensated Absences**

It is the government's policy to require employees to use all earned vacation time by the end of the fiscal year; therefore no liability is reported for vacation leave. No liability is reported for unpaid accumulated sick leave.

**MASON COUNTY, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2025**

## **6. Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.

## **7. Deferred Outflows/inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

## **8. Fund Balances**

In the governmental fund financial statements, fund balance is reported in five classifications.

Nonspendable fund balance      Inventories and prepaid amounts represent fund balance amounts that are not in spendable form.

Restricted      The restricted category is the portion of fund balance that is externally imposed by creditors, grantors, contributors or laws or regulations. It also is imposed by law through constitutional provisions or enabling legislation.

Committed      The committed category is the portion of fund balance whose use is constrained by limitations have been approved by an order (the highest level of formal action) of the County Commission, and that remain binding unless removed in the same manner. The approval does not automatically lapse at the end of the fiscal year. The government does not have any committed fund balance this fiscal year.

Assigned      The assigned category is the portion of fund balance that has been approved by formal action of the County Commission/other official authorized to assign amounts for any amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned      The unassigned category is the portion of fund balance that has not been reported in any other classification. Only the general fund can report a positive amount of unassigned fund balance. However, any governmental fund in a deficit position could report a negative amount of unassigned fund balance.

**MASON COUNTY, WEST VIRGINIA  
NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2025**

---

The County Commission is the government's highest level of decision-making authority. The Commission would take formal action to establish, and modify or rescind, a fund balance commitment or to assign fund balance amounts to a specific purpose. The government has adopted a revenue spending policy that provides guidance for programs with multiple revenue sources. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The government has the authority to deviate from this policy if it is in the best interest of the County.

The government has not adopted a minimum fund balance policy that requires management to maintain a total spendable general fund balance.

## **9. Stabilization Arrangements**

The government has created a stabilization arrangement in accordance with West Virginia Code § 7-21-3. The government may appropriate a sum to the arrangement from any surplus in the general fund at the end of each fiscal year or from other money available. The amount of money committed to the arrangement may not exceed thirty percent of the government's most recent general fund budget. The stabilization balance at fiscal year-end was \$525,820.

## **10. Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of the resources related to pensions, and pension expense, information about the fiduciary net position of Mason County's Public Employment Retirement System (PERS) and Deputy Sheriff's Retirement System (DSRS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the PERS and DSRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## **11. Net Other Post-Employment Benefits (OPEB) Liability**

For purposes of measuring the net OPEB liability and deferred outflows/inflows of the resources related to other post-employment benefits, and other post-employment benefit expenses, information about the fiduciary net position of County's Other Post-Employment Benefits Plan (OPEB) of the West Virginia Retiree Health Benefit Trust Fund (RHBTF) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the RHBTF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Detailed information can be found in the plans' financial statements.

**II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position**

The governmental fund Balance Sheet includes a reconciliation between fund balance total governmental funds and net position-governmental activities as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this difference are as follows:

Capital leases payable	\$ ( 2,115,766)
Notes payable	( 1,056,257)
Net pension obligation	<u>59,339</u>
Net adjustment to decrease fund balance- total governmental funds to arrive at net position-governmental activities	<u>\$ ( 3,112,684)</u>

**B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities**

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount that capital outlays exceeded depreciation for the current period". The details of the difference are as follows:

### **III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

#### **A. Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and the Coal Severance Tax Special Revenue Fund. All annual appropriations lapse at fiscal year end.

Mason County, West Virginia prepares its budget on the cash basis of accounting except that the Stabilization Fund is removed from the cash balance of the General County Fund. Therefore, a reconciliation has been performed on the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual for both the General and Coal Severance Tax Funds.

Prior to March 2nd of each year, the various elected officials submit to the County Commission proposed requests for their respective offices for the fiscal year commencing July 1. Upon review and approval of these requests, the County Commission prepares proposed budgets on forms prescribed by the State Auditor and submits them to the State Auditor by March 28 for approval. The County Commission then reconvenes on the third Tuesday in April to hear objections from the public and to formally lay the levy.

The appropriated budget is prepared by fund, function and department. Transfers of appropriations between departments and revenue related revisions to the budget require approval from the governing council and then submission to the State Auditor for approval. Revisions become effective when approved by the State Auditor and budgeted amounts in the financial statements reflect only such approved amounts. The governing body made the following material supplementary budgetary appropriations throughout the year.

<u>Description</u>	General Fund	Coal Severance
	<u>Amount</u>	<u>Amount</u>
General government expenditure increase	\$ 667,905	--
Public safety expenditure increase	465,556	12,601

**IV. DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

At year-end, the government had the following investments:

	<u>Fair Value</u>	<u>Credit Risk Rating</u>
	Standard	
	& Poor's	
	Fair Value	and Fitch
State Investment Management Board pool	<u>\$ 1,311,552</u>	AAAm
Total	<u>\$ 1,311,552</u>	

*Interest Rate Risk*

The County could be exposed to interest rate risk within debt securities due to fluctuations in the market and the length of the weighted average to maturity. The County does not have a policy for interest rate risk. All of the County's investments were in the WV Money Market Pool, which has a policy that investment managers cannot exceed 60 days weighted average maturity, and the maximum maturity for individual securities cannot exceed 397 days from the date of purchase.

*Credit Risk*

State law limit investments as described in Note I.D.1. The government does not have a policy for credit risk in addition to state regulations. As of June 30, 2025, the government's investments were rated using Standard & Poor's and Fitch and Moody's Investment Services.

*Concentration of Credit Risk*

The government does not have a policy for concentration of credit risk. GASB Statement No. 40, "Deposit and Investment Risk Disclosures", requires disclosure when the investment in any one issuer equals or exceeds 5% of the total amount of investments. All of the government's investment was in the WV Money Market Pool, which has a restriction that only a maximum of 5% of the Pool may be invested in any one corporate name and only 3% may be invested in any one issuer of USD denominated non-US Issuer Securities.

*Custodial Credit Risk*

For deposits, the government could be exposed to risk in the event of a bank failure where the government's deposits may not be returned. The government's policy for custodial credit risk is to comply with statutory provisions for depository bond coverage, which provides that no public money should be deposited until the banking institution designated executes a bond with good and sufficient sureties which may not be less than the maximum sum that is deposited in the depository at any one time.

At year end, the government's bank balances were \$6,013,482. The bank balance was collateralized by federal depository insurance or with securities held by the pledging financial institution's trust department or agent in the government's name.

For investments, the government could be exposed to risk in the event of the failure of the counterparty where the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The government's entire investment is in the WV Money Market Pool Fund. Per GASB 40, money market funds are a type of open-ended mutual fund that is not subject to custodial credit risk disclosures.

A reconciliation of cash and investments as shown on the Statement of Net Position of the primary government and Statement of Net Position of the Fiduciary Funds is as follows:

Cash and cash equivalents	\$ 4,701,930
Investments - collateralized and secured	<u>1,311,552</u>
 Total	 <u>\$ 6,013,482</u>
 Cash and cash equivalents	 \$ 2,570,116

## **V. OTHER INFORMATION**

### **A. Risk Management**

The government is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance with West Virginia Corp for umbrella (general liability) insurance for these various risks.

**MASON COUNTY, WEST VIRGINIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2025**

---

Workers' Compensation Fund (WCF): West Virginia utilizes a single private insurance company, Brick Street Insurance, to provide workers' compensation coverage to all employers in the state. Other private insurance companies may begin to offer coverage to private sector employees beginning July 1, 2008 and to government employers beginning July 1, 2010. For the most part, all employers in the state, including governmental entities, must have coverage. The cost of all coverage, as determined by Brick Street, is paid by the employers. The WCF risk pool retains the risk related to the compensation of injured employees under the program.

Liabilities are reported when it is probable a loss has occurred and the amount of the loss can be reasonably estimated.

**B. Contingent Liabilities**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds.

The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's counsel that resolution of these matters will not have a material effect on the financial condition of the government.

**C. Deferred Compensation Plan**

The government offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time government employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held for the exclusive benefit of the participants and their beneficiaries.

**D. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**

***General Information about the OPEB Plan***

*Plan description* The government contributes to the West Virginia Other Postemployment Benefit Plan (the Plan), a cost-sharing, multiple-employer defined benefit postemployment healthcare plan. The financial activities of the Plan are accounted for in the West Virginia Retiree Health Benefit Trust Fund (RHBT), a fiduciary fund of the State of West Virginia. The Plan is administered by a combination of the West Virginia Public Employees Insurance Agency (PEIA) and the RHBT staff. Plan benefits are established and revised by PEIA and the RHBT management with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration cabinet secretary serves as Chairman of the Board. Four members represent labor, education, public employees and public retirees. The four remaining members represent the public at large. The RHBT audited financial statements and actuarial reports can be found on the PEIA website at [www.peia.wv.gov](http://www.peia.wv.gov). You can also submit your questions in writing to the West Virginia Public Employees Insurance Agency, 601 57th Street, SE, Suite 2, Charleston, WV, 25304.

***Benefits provided:***

The Plan provides medical and prescription drug insurance and life insurance. The medical and prescription drug insurance is provided through two options: 1) Self-Insured Preferred Provider Benefit Plan (primarily for non-Medicare-eligible retirees and spouses) and 2) External Managed Care Organizations (primarily for Medicare-eligible retirees and spouses).

***Contributions:***

Paygo premiums are established by the Finance Board annually. All participating employers are required by statute to contribute this premium to the RHBT at the established rate for every active policyholder per month. The active premiums subsidized the retirees' health care by approximately \$60 million for the fiscal year ending June 20, 2024. The Plan had approximately 43,000 policyholders and 63,000 covered lives at June 30, 2024.

Contributions to the OPEB plan from the government were \$31,620 for the current fiscal year.

***OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability, deferred inflows and outflows of resources and OPEB expense were determined by an actuarial valuation date as of June 30, 2024, which is the measurement date. The government's proportion of the net OPEB liability was based on a projection of the government's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2025, the government's reported the following proportions and increase/decreases from its proportion measured as of June 30, 2024:

Amount for proportionate share of net OPEB liability	\$ --
Percentage for proportionate share of net OPEB liability	0.000000%
Increase/(decrease) % from prior proportion measured	-0.006261978%

For the year ended June 30, 2025, the government recognized the following OPEB expenses.

Government-wide OPEB expense	<u><u>\$ 45,792</u></u>
------------------------------	-------------------------

The government reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u><u>Deferred Outflows of Resources</u></u>	<u><u>Deferred Inflows of Resources</u></u>
Difference between expected and actual experience	\$ --	\$ --
Changes of assumptions	--	--
Differences between expected and actual non-investment experience	--	--
Net difference between expected and actual earnings on OPEB plan investments	--	--
Changes in proportion and differences between government contributions and proportionate share of contributions	8,889	(47,975)
Reallocation of OPT-Out Employer change in proportionate share	--	--
Government contributions subsequent to the measurement date	<u><u>31,620</u></u>	<u><u>--</u></u>
	\$ 40,509	\$ (47,975)

The amount reported as deferred outflows of resources related to OPEB resulting from government contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

***Actuarial Assumptions***

The total OPEB liability was determined by an actuarial valuation as of June 30, 2023, rolled forward to June 30, 2024, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Actuarial assumptions

Inflation rate	2.50%	
		Rates based on 2015-2020 OPEB Experience Study and dependent on pension plan participation and attained age, and range from 2.75% to 5.18%, including inflation. Rates were first applied to the 2020 valuation
Salary increases	7.40%, net of OPEB plan investment expense, including inflation	
Investment Rate of Return		
Mortality Rates		Postretirement: Pub-2010 General Healthy Retiree Mortality Tables, (100% males, 108% females) projected with MP-2021 for TRS. Pub-2010 General Below Median Healthy Retiree Tables (106% males, 113% females) projected with MP-2021 for PERS. Pub-2010 Public Safety Healthy Retiree Mortality Tables (100% males, 100% females) projected with Scale MP-2021 for Troopers A and B.
		Pre-Retirement: Pub-2010 General Employee Mortality Tables (100% males, 100% females) projected with Scale MP-2021 for TRS. Pub-2010 Below-Median Income General Employee Mortality Tables projected with Scale MP-2021 for PERS. Pub-2010 Public Safety Employee Mortality Tables projected with Scale MP-2021 for Troopers A & B.
Healthcare cost trend rates		Trend rate for pre-Medicare and Medicare per capita costs of 5.0% medical and 8.0% drug. The trends increase over four years to 7.0% and 9.5%, respectively. The trends then decrease linearly for five years until ultimate trend rate of 4.50% is reached in plan year 2033.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2020.

---

The long-term rates of return on OPEB plan investments are determined using a building block method in which estimates of expected future real rates of return (expected returns, net of OPEB plan investments expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage. Target asset allocations, capital market assumptions ("CMA"), and forecast returns were provided by the Plan's investment advisors, including West Virginia Investment Management Board ("WV-BTI") was estimated based on WV-IMB assumed inflation of 2.0% plus a 25 basis point spread.

	<u>Long-Term Expected Real Rate of Return</u>
Equity	7.4%
Fixed Income	3.9%
Private Equity and Income	7.4%
Real Estate	7.7%
Hedge Fund	4.5%
Private Equity	10.0%

*Discount rate.* The single discount rate of 7.4 was used to measure the total OPEB liability. This single discount rate was based on the expected rate of return on OPEB plan investments of 7.4%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made in accordance with the prefunding and investment policies. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The following table presents the government's proportionate share of its net OPEB liability calculated using the discount rate of percent and the impact of using a discount rate that is 1% higher or lower than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	6.40%	7.40%	8.40%
Government's proportionate share of RHBT net OPEB liability	\$ --	\$ --	\$ --

***Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions***

At fiscal year-end, the government reported the following liabilities for its proportionate share of the net pension liabilities. The net pension liabilities were measured as of June 30, 2024, and the total pension liability used to calculate the net pension liabilities were determined by an actuarial valuation as of that date. The government's proportion of the net pension liabilities was based on a projection of the government's long-term share of contributions to the pension plans relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2025, the government's reported the following proportions and increase/decreases from its proportion measured as of June 30, 2024: Note: these amounts differ from the pension liability reported on the Statement of Net Position due to rounding and changes to the allocation schedules; however, the differences in these amounts are considered immaterial.

	PERS	DSRS	EMSRS
Amount for proportionate share of net pension liability	(\$ 317,915)	\$ 395,380	(\$ 136,804)

The long-term expected rate of return on pension plan investments were determined using a building-block method in which estimates of expected real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Rates summarized in the following table include the inflation component and were used for the following defined benefit plans:

*Discount rate.* The discount rate used to measure the total pension liability was 7.25 percent for all defined benefit plans. The projection of cash flows used to determine the discount rates assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position for each defined benefit pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liabilities of each plan.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage point higher than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
